

Innovative ASIC development and supply

Facts

- ASIC development and supply
- Custom IC design services
- Experts in analog, digital, mixed-signal and high-voltage
- Largest independent European design group
- ISO9001 / ISO13485 / IEC61508-ISO26262
- Unique design and verification environment
- Automotive, medical, industrial and consumer

Main expertise areas

Sensor / MEMS

High-Voltage

Power / Battery

Low-Power

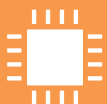

Communication

Why choose ICsense ?

Innovative and high-complex ASIC developments at low risk

Exclusive ASIC supply to secure your competitive advantage

Europe's largest fab-independent mixed-signal design group
