

# IC'ALPS

## At the Heart of Your Innovation

COMPANY CONFIDENTIAL

# IC'Alps at a glance

- **Our Profile**

- › A fabless semiconductor company, specialized micro/nano-electronic technology
- › Founded in **March 2018**, as a subsidiary of DOLIAM group
- › Fast growing team of **30+** passionate experts, **300+** years of cumulated experience
- › **ISO13485, EN9100, ISO9001** certifications on going

- **Our Offer**

- › Application Specific Integrated Circuit (**ASIC**) design and supply
- › Full turnkey solution or custom block implementation
- › Analog, mixed and digital design technology expertise
- › From **0.35μm** down to **22nm** technology nodes
  - » Low power, SOI, high voltage, eFlash... process options support

- **Our Ecosystem**

- › At the heart of the French silicon valley (Grenoble)
- › Partnering with worldwide tier 1 semiconductor foundries and IP providers
- › ARM certified design partnership

# IC'Alps Market Target

## IoT

- › Smart Things
- › Smart City
- › Industry 4.0

## Transport

- › Automotive
- › Railway

## Healthcare

- › Monitoring
- › Medical Aid
- › Imaging
- › Diagnostics

## Industry

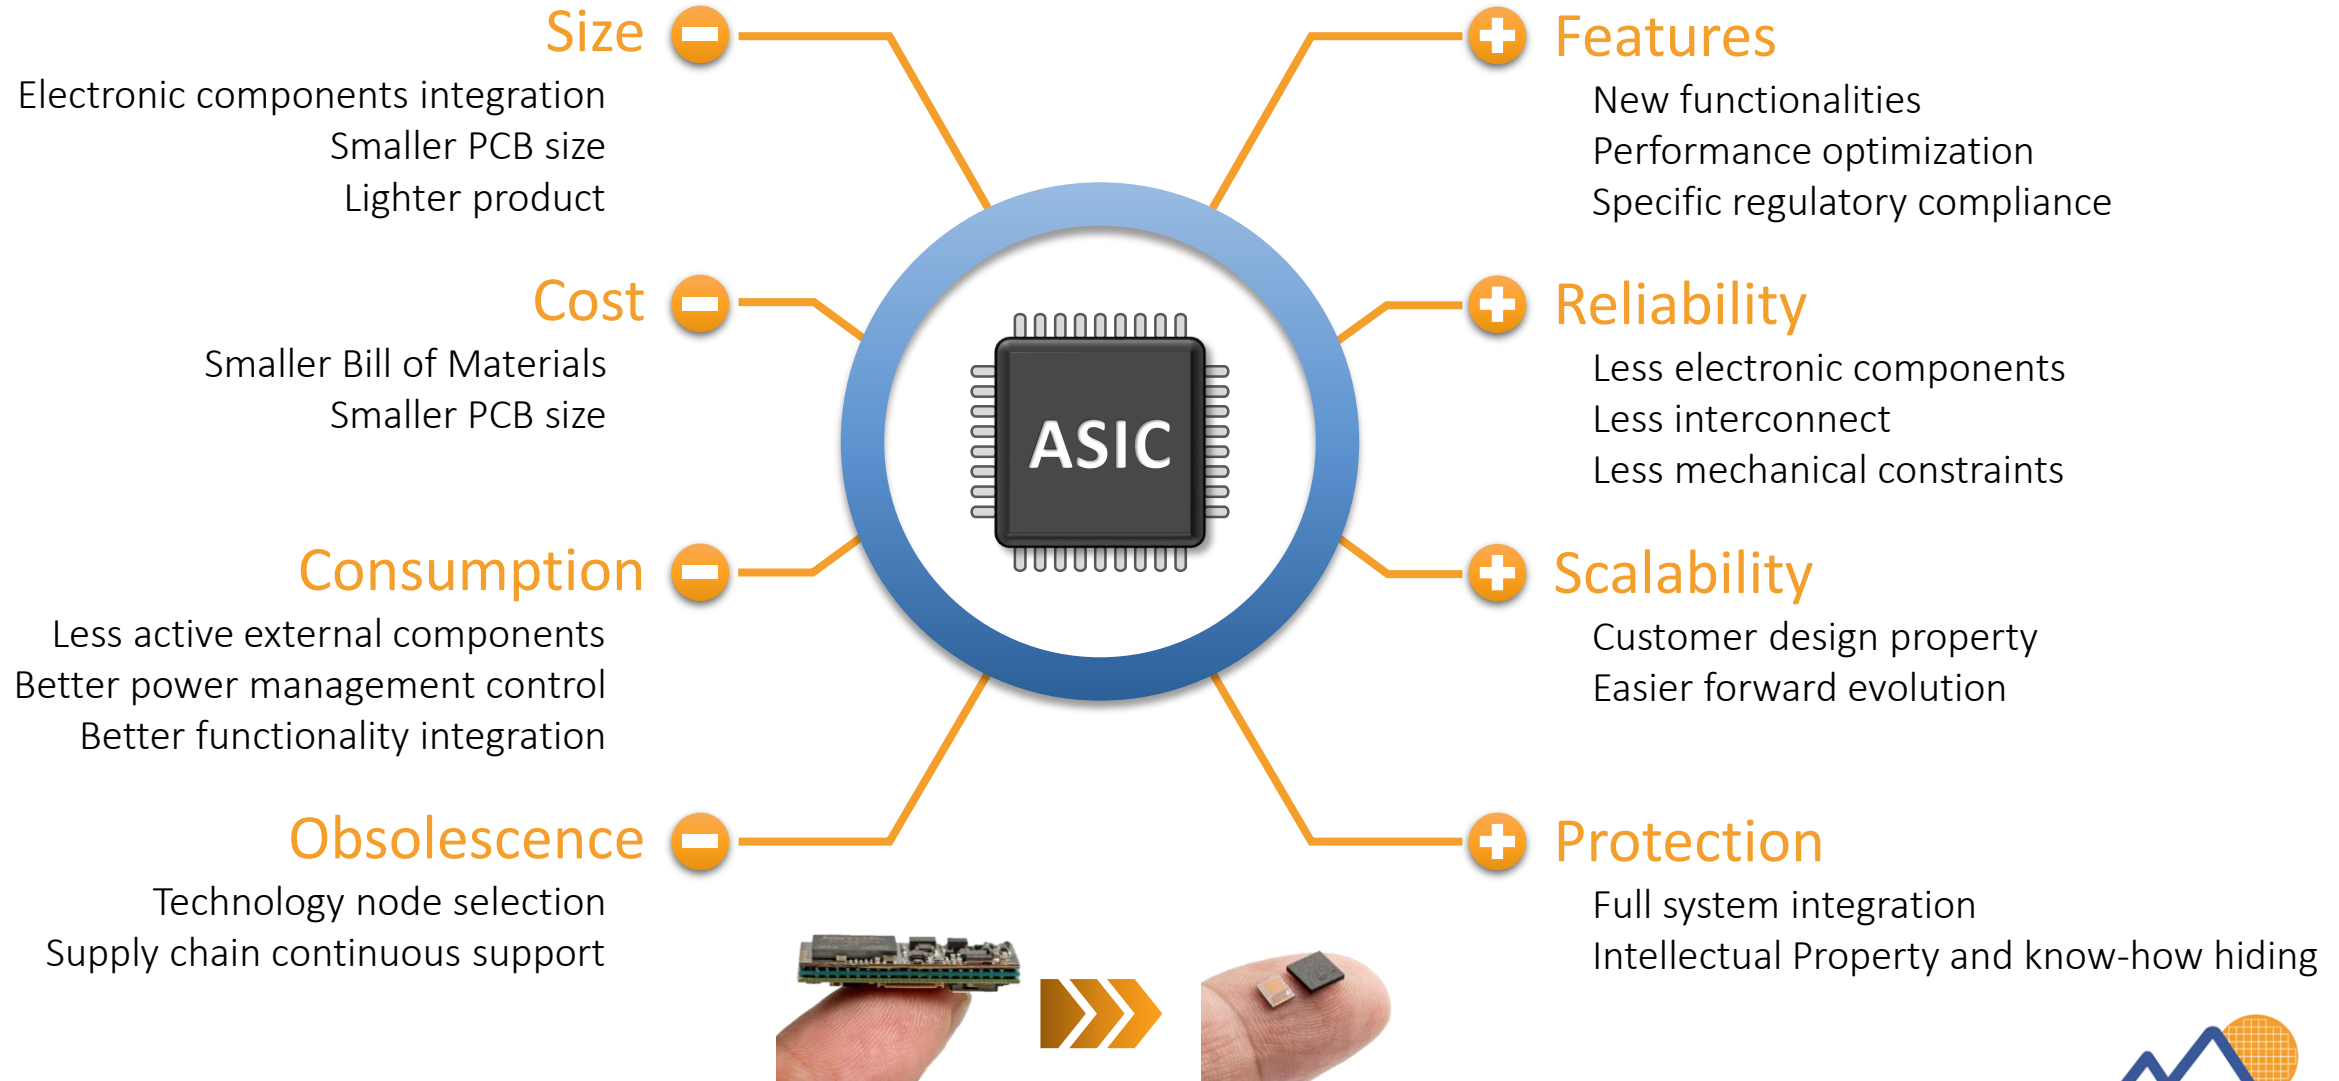

- › Electronics
- › Engineering
- › Equipment

## Mil/Aero

- › Aeronautic
- › Space
- › Defence

# Why an ASIC ?

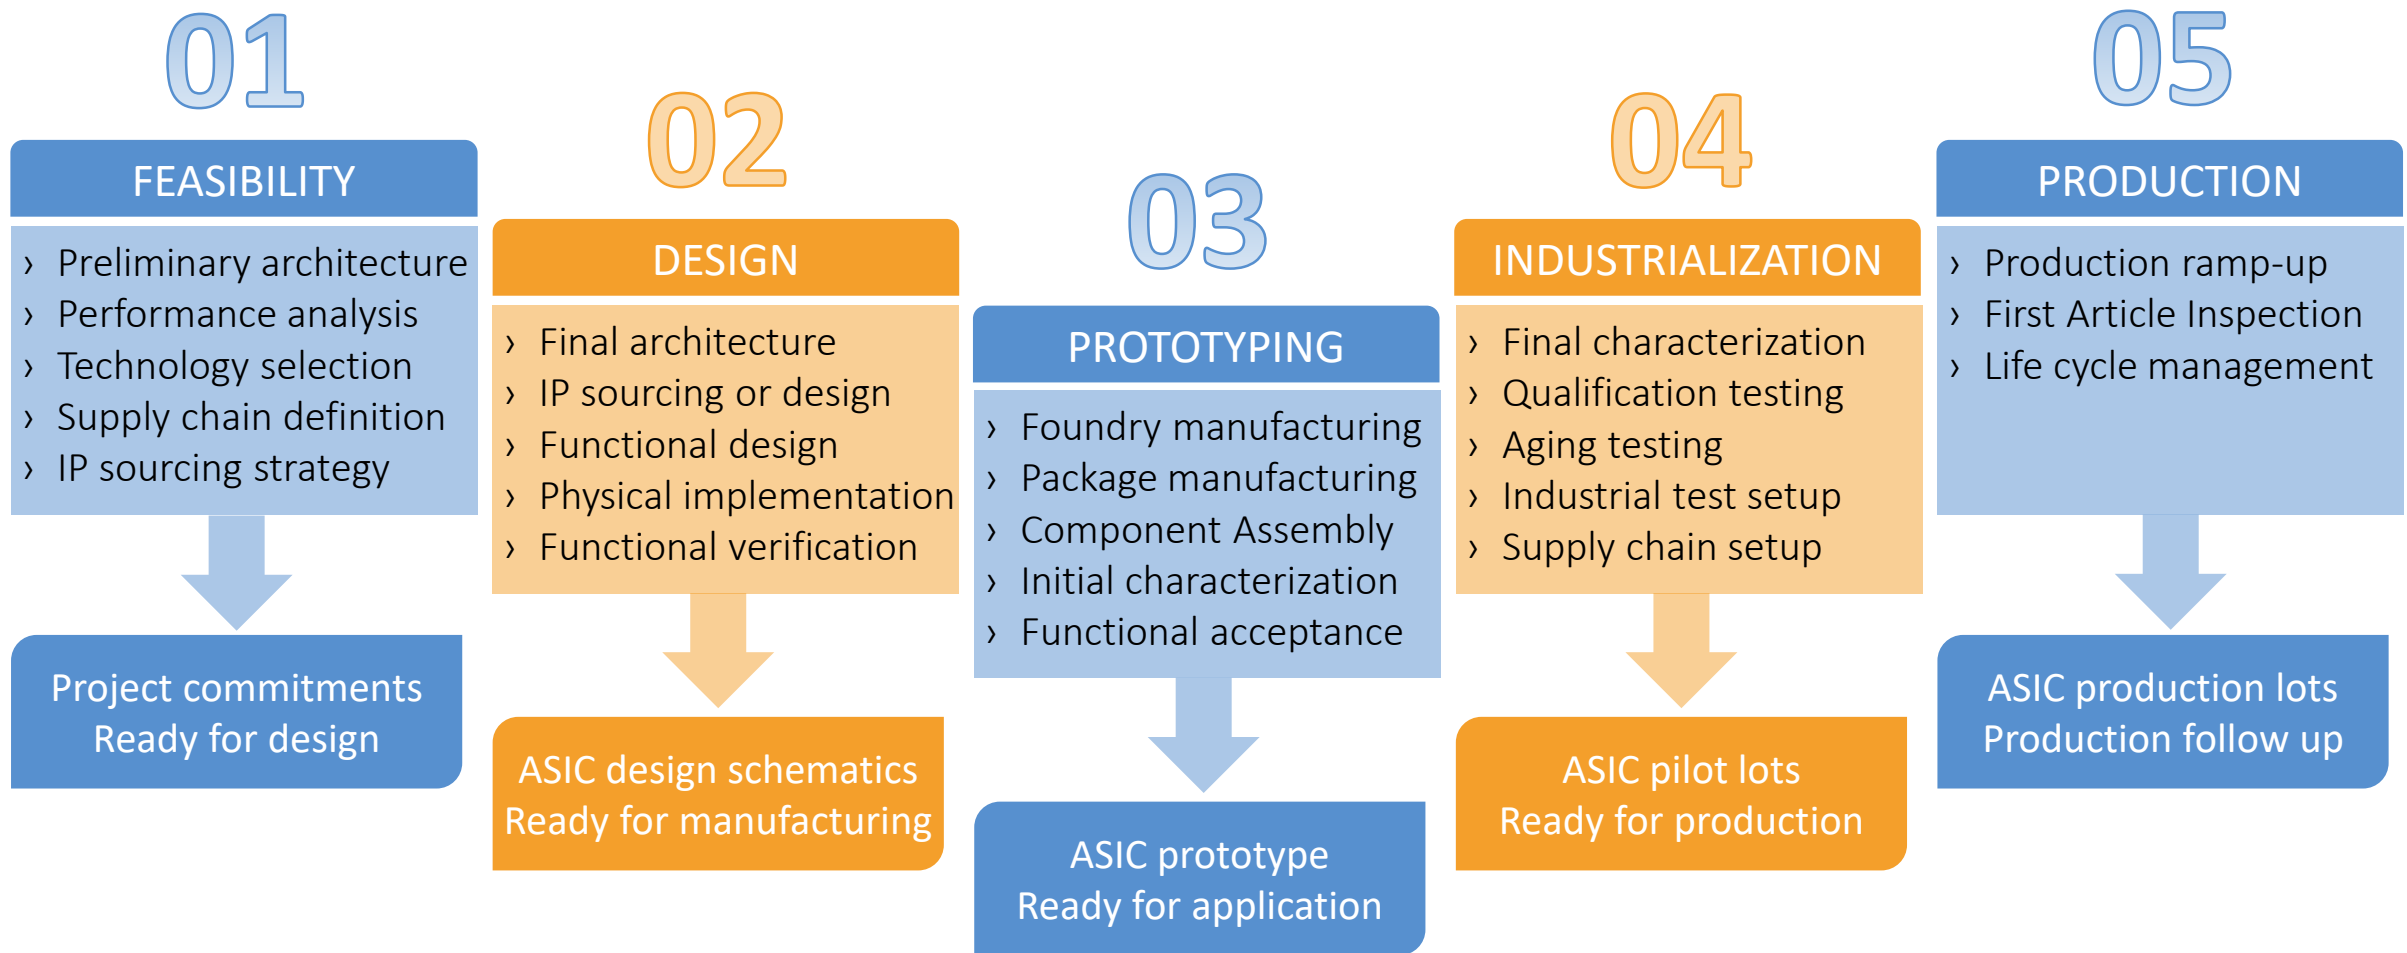

# Why IC'Alps as your ASIC partner ?

# IC'Alps ASIC Design and Supply Process – A la carte
